The smart way to drive

Jabra offers the latest in speakerphone technology – the SP700. With the SP700 you can play Bluetooth music and calls on your car stereo with no installation needed. SP700 offers the same high quality sound as expensive built-in solution without any wiring or installation necessary.

Jabra SP700 offers a new level of usability and safety for Bluetooth speaker phones. With the SP700, you'll receive spoken information so there's no need to take your eyes off the road while you drive. Automatic pairing makes getting started simple. The SP700 features advanced noise reduction and echo cancellation that insures excellent sound quality on both sides of the call.

The SP700 keeps up Jabra's speaker phone heritage offering a classic slim line design that easily blends in with your car's interior. Pair SP700 with your mobile phone and place it on the sun visor – it's really that simple.

1) Answer/end button, On/off button

Press or hold button to activate

For optimized sound quality in receiver end

Quick start guide

Charge your Jabra SP700

Insert charger and remove when fully charged. The speakerphone is fully charged when battery indicator turns green.

Turn on your Jabra SP700

Press Answer/End button for 2 seconds to turn on.
Press Answer/End button for 4 seconds to turn off.

Pairing the Jabra SP700 with your phone

1. The first time you turn on the speakerphone it will automatically be in pairing mode. To enter pairing mode subsequently, turn off SP700 and press the Answer/End button for 5 seconds.
2. Release the button when the Bluetooth Status Icon begins to flash quickly and you hear a voice announce: "Pairing mode".
3. Activate the Bluetooth function on your phone and set the phone to "discover" the speakerphone SP700.
4. Confirm with PIN code = 0000 (4 zeros).

Using the Jabra SP700

Press the Answer/End button to answer or end a call.
Tap Volume Up/Volume Down keys to adjust the volume.

Using SP700 with your car stereo

The FM transmitter in the speakerphone allows you to transmit calls and music from your mobile to the car stereo.

1. Connect your mobile and your speakerphone.
2. Press the FM button to enter FM mode. The FM Status Icon will turn solid red and a FM frequency will be announced.
3. Manually turn your radio into the same FM frequency and you are now ready to transmit calls and music from your phone to your car stereo.

Place the Jabra SP700 in your vehicle

Use the supplied clip to attach the SP700 to your car's sun visor.
